Part 2: Additional Medical Questions

- •Complete this section **only if** applying for a medically underwritten product
- •Recording an accurate and complete health history is important for expediting the underwriting process. Partial or vague declarations often raise more questions which may cause delays in processing the application
- •While completing an application for a Foresters non-medical product and you suspect that your client may be declined, complete Part 2 of the Additional Medical Questions section as part of the non-med application
- •If the non-med application is declined they can apply for a Foresters medically underwritten product in one of two ways:
 - If Part 2: Additional Medical Questions were not completed, complete a new application with all required signatures, and send back to Foresters; or
 - Submit a cover letter with the statement "Non-med decline (certificate #) – please process as medically underwritten" along with an updated Product Details Page and the answers to Part 2: Additional Medical Questions section if not previously submitted.

Additional Information & Questionnaires

Additional information is required for each "Yes" answer in the Lifestyle, Medical, and Rider Questions sections. You can help speed up the Underwriting process by completing, at the time of the application, the **Underwriting Questionnaire** that is applicable to each "Yes" answer. The following questionnaires are the most common and should cover most of your cases:

Alcohol Usage	Chest Pain	Cyst, Lump or Tumor
Diabetes	Drug and Substance Usage	Mental Health

For all other "Yes" answers, please include the following details in the Additional Information section of the application:

Diagnosis	Treatment	Date first diagnosed
Prescribed medications and equipment	Medical facilities	Physicians' name, addresses and numbers
Dates of hospita	lization, dura	ntion of each stay

In the event insufficient or no details are provided in the application for a "Yes" answer or a discrepancy between information from MIB/Pharmacy checks and the application, Foresters will contact the producer for further information and may request to have a questionnaire completed.

All questionnaires can be found in the "Forms & Brochures" section of Foresters producer website under "Underwriting & Questionnaires". Consult the UW Guide for details.

Accelerated Death Benefit Rider Disclosure (This disclosure must be given to the owner.)

The insurance contract you are applying for may include one of the following accelerated death benefit riders: Accelerated Death Benefit Rider (for Chronic, Critical and Terminal Illness); Accelerated Death Benefit Rider (for Chronic, Critical and Terminal Illness); or Accelerated Death Benefit Rider (for Terminal Illness). You should review the insurance contract its suck, if any, to determine which one of these riders, if any, it includes. This disclosure provides only a brief description of the accelerated death benefit rider ("rider") that may be included in the insurance contract, it is not the rider and only the provisions of the rider, and the certificate that the rider is attached to, will control. A full description can be found within the certificate and rider issued, if any, herefore it is important that you read the certificate and rider suserful.

Benefit Description

The rider provides the opportunity for the owner to accelerate a portion of the certificate's eligible death benefit ("acceleration amount"), during the lifetime of the insured, and receive an accelerated death benefit payment, ("payment"). Under the conditions described in the rider the owner may elect to receive a payment if the insured is diagnosed, by a physician, with a chronic, critical or terminal illness, as applicable under that rider. The payment is paid to the owner and not to the beneficiary(ies). The rider is not, and is not intended to be, long-term care insurance.

There is no required premium or monthly rider deduction, as applicable, for the rider. However, a payment may have deductions and other effects, as referred to in this disclosure.

Chronic illness means the insured:

- a) Is unable to perform, without substantial assistance from another person, at least two of the activities of daily living (bathing, continence, dressing, eating, tolleting or transferring) for a period of at least 90 days, due to a loss of functional capacity; or
- b) Requires substantial supervision by another person to protect the insured from threats to health and safety due to the insured's severe cognitive impairment.

The chronic illness must be diagnosed by a physician as permanent.

Critical illness means the insured has one or more of the following, as defined in the rider: Advanced Alzheimer's Disease (before the insured's 75° birthday), Amyptorphic Isterial Sciencis (ALS), End Stage Renal Failure (Kidney Failure), Life Threatening (Invasive) Cancer, Major Organ Failure, Moncantial Interior Heart Attacking or Stroke

Terminal illness means the insured has a non-correctable illness or physical condition which is reasonably expected to result in death within 12 months of diagnosis.

Amount of the Accelerated Death Benefit Payment

The accelerated death benefit payment may be less than the acceleration amount as we may deduct from the acceleration amount: an actuarial discount amount, determined by us, an administrative fee, the sum of the unpaid total premium or overdue monthly deductions, as applicable; and a loan reportment amount if there is an outstanding loan.

For terminal illness: The actuarial discount amount and administrative fee will both be \$0.00. This means that the payment will only be less than the acceleration amount if, on the effective date of the payment, there are unpaid total premiums, overdue monthly deductions or an outstanding loan amount.

For chronic and critical illness: The administrative fee will be no more than \$500.00. The actuarial discount amount will be determined by us based upon a number of factors, such as the insured's age and life expectancy on the effective date of the payment, and will take into account the present value of future anticipated premiums or monthly deductions, as applicable. This means that the payment will be less, and depending on the individual circumstances of the claim could be substantiable less than the acceleration amount.

Each acceleration amount must be at least \$4,500.00 and must be such that after acceleration a residual face amount of at least \$10,000.00 remains. The total of all acceleration amounts cannot acceed the lesser of 95% of the eligibile death benefit on the effective date of the first payment and \$500,000.00. For chronic lilness the maximum amount that can be accelerated in any 12 month period is 24% of the eligible death benefit on the effective date of the first payment due to a chronic lilness. For critical and terminal illness, the maximum amount that can be accelerated in \$95% of the eligible death benefit on the effective date of the payment.

Effect of Payment on the Certificate

An accelerated death benefit payment will not end the certificate, however it will reduce the face amount and the amount, if any, of the paid-up additional insurance, account value or cash value, and loan amount on a pro-rata basis, based upon the acceleration amount. That payment reduce the death benefit payable, if any, to the beneficiaryles). The reduction to the face amount for chronic and critical liness will be more, and for terminal illness may be more, than the amount of the payment. Premiums or monthly deductions due, and dividends credited, after the effective date of the payment, will be adjusted based upon the reduced face amount. The adjusted premiums or monthly deductions, if any, will be as if the certificate had been issued at the reduced face amount.

The following example is hypothetical and is intended only to show the relationship between certificate values before and after payment of an accelerated death benefit. The example is based upon a whole life insurance certificate where an acceleration amount of 50% of the eligible death heapfift has been amonived.

	Before Acceleration	After Acceleration
Face Amount:	\$100,000.00	\$50,000.00
Amount of Paid-up Additional Insurance:	\$ 20,000.00	\$10,000.00
Eligible Death Benefit:	\$120,000.00	\$60,000.00
Cash Value:	\$30,000.00	\$15,000.00
Cash Value of Paid-up Additional Insurance:	\$10,000.00	\$ 5,000.00
Loan Amount:	\$ 8,000.00	\$ 4,000.00
Cash Surrender Value:	\$32,000.00	\$16,000.00
Annual Premium	\$ 1,272.00	\$ 672.00

Effect of Payment on Taxation and Eligibility for Public Assistance

Receipt of an accelerated death benefit payment under the rider is intended to qualify for favorable tax treatment under the Internal Revenue Code. However, depending on individual circumstances or changes to that code, receipt of an accelerated death benefit payment may be a taxable event. You should consult with a qualified tax advisor in order to assess the tax impact of receiving an accelerated death benefit payment.

Receipt of an accelerated death benefit payment may affect your, your spouse's or your family's eligibility for public assistance such as Medicald, supplemental social security income or other government benefits or entitlements. You should consult each applicable government agency before receiving an accelerated death benefit payment so that you can assess the impact on eligibility for such assistance.
